WHY CHOOSE US?

As a leading architecture and interior design practice in Hong Kong, S&B Design Limited was established with a strong foundation in creating sophisticated and functional spaces. Nowadays, S&B Design stands out in the industry by combining innovative design excellence with advanced material solutions, including premium sustainable wood composites and luxury sintered stone technologies, while delivering exceptional cross-brober project coordination.

Our projects apply to a wide range of high-end developments, including commercial buildings, offices, hotels, retail spaces, residential properties, villas & houses, and exhibition installations. On the other hand, we have been able to provide architecture, interior design, and fit-out solutions of highest quality to clients across Hong Kong, Mainland China, Thailand, the United Kingdom, and other international markets.

S&B Design is also a trusted partner for premium composite materials, offering complete design-to-execution support for modern, waterproof, durable, and eco-friendly environments.

OUR STRATEGIC PARTNERS & SUPPLY CHAIN

ORGINAL INNOVATION & R&D TEAM

S&B Design Limited works exclusively with professional design and R&D teams from Europe, Japan, Singapore, and China. These world-class partners have been awarded hundreds of international design patents and industry innovation awards. Our partner teams continuesly push the boundaries of material technology, insisting on creating truly original, high-performance products while maintaining the highest standards of technological innovation throughout the entire development and manufacturing process

EFFICIENT PRODUCTION CAPACITY

Through our carefully selected manufacturing partners, we command an exceptionally strong production capacity that exceeds 300,000 square meters per month across multiple advanced production lines. These factilities specialize in both indoor and outdoor composite materials, sintered stone, and premium architectural finishes. This scale, combined with our cross-broder project coordination expertise, enables us to guarantee faster lead times and relaible delivery schedules even for the most demanding and time-sensitive projects of our professional clients.

A COMPLETE PRODUCT & SOLUTION SYSTEM

S&B Design Limited, together with our strategic partners, offers a complete and comprehensive product system covering more than 600 varieties of premium composite materials and architectural solutions. These include Eco-Board sustainable wood composites, high-end sintered stone, invisible door systems, waterproof panels, decorative surface, wall cladding, ceiling system, custom furniture components, and full outdoor living solutions. We provide not only the materials but also complete accessories, detailed technical specifications, and easy-to-follow installation guides, making the entire process so seamless that even complex projects can be executed with exceptional efficiency.

QUALITY PRODUCTS & SERVICES

Driven by the philosophy of “Innovation Materials, Timeless Spaces”, S&B Design Limited and our trusted partners are committed to delivering the highest quality, environmentally responsible, and durable products. We continuously invest in upgrading manufacturing processes, enhancing the professional capabilities of our combined teams, and providing superior end-to-end service - form material selection and custom design coordination to cross-broder logistics and on-site installation support - ensuring every client receives exceptional quality and peace of mind throughout the entire project journey.

INNOVATION & HONOR

PRODUCTION PROCESS

Strategic Vendor Partnership & Premium Network

We collaborate with an elite network of industry-leading global manufacturers to deliver world class material solutions. Our strategic partners bring unparalleled technical strength and environmental credentials to your projects:
- Innovative Material Access: Direct integration with manufacturers holding over 200 patents in design and utility innovation
- Elite Global Certifications: All materials are backed by premium international standard, including Singapore Green Certificate, FSC, and CE (Europe).
- Certified Sustainability: Products are sourced from recognized ISO 154025 environmental protection enterprises and Top 10 Eco-Green Material Manufacturers.
Architect-Approved Quality: A proven track record with materials strongly recommended and specified by leading global architects and designers.

The Wild Nature Series is inspired by the vast nature, and imitate the textures to bring a more realistic experience.The product retains the most original surface texture and details of nature, while possessing light weight and flexible characteristics, all can be widely used for indoor and outdoor covering decoration..

01

Raw materials are placed into the miser and mixed evenly.

02

Pellets are then extruded out from the pelletizer at a formulated temperature.

03

Through formulations, different pellets are placed into the mixer and mixed evenly.

04

Profile will be then extruded out through a mold.

05

After cooling down, profiles are solidified, forming the shape as from the mold.

06

Profiles are then cut at specific standard length or customized according to customer requirement.

STONE TEXTURE

S & B Design Limited

,Keeping up with the trend of the times, we reproduce the inherent texture and charm of stone with a tough surface and smart texture. Stone patterns of different sizes are scattered in an orderly manner, which not only enriches the surface shape, but also enhances the comfort of the material itself. Colorful designs such as rough stones, art, and ink paintings not only show fashion style, but are also luxurious.

METAL TEXTURE

S & B Design Limited

The soft diffuse reflection of the metal interacts with the color of the space. The lines are simple and tough, full of modernity.It presents a space that coexists with a sense of sophistication and the future. The material is light, saves time and labor, and the installation effect is extremely stunning.
