Premium High-Efficiency LED Panel

Energy-Saving • Sustainable Illumination

EU Energy Label A+++

Efficacy: 200 lm/W
Rated Power: 24W
Color Temp: 4000K (Natural White)

Utilizing high-efficiency LED chips with up to 200lm/W.
Certified to the highest European energy efficiency standards.
Our 24W LED panel seamlessly replaces a traditional 60W fixture.

Annual savings per lamp ≈ €170 (based on 10h/day usage)

Architectural Office Lighting

Ultra-Slim Profile Design

Superior Light Quality

National First-Class
Energy Efficiency Certified

Professional LED Car Beauty & Detailing Lights

High-Intensity Illumination • Perfect Color Rendering • Dramatic Vehicle Enhancement

Product Types

12-Grid Wash Light – 1440W

16-Grid Wash Light – 11920W

Hexagonal Honeycomb Wash Light – 650W

Rectangular Workstation Light – 650W

Key Features & Benefits

Ultra-bright uniform lighting that highlights every curve, contour, and paint detail

High CRI for true-to-life color accuracy

Strategic positioning for maximum gloss, depth, and 3D effect on vehicles

Ideal for car detailing bays, showrooms, and professional beauty studios

Application Scenes

Professional LED Sports Hall Lights

High-Performance Illumination for Competitive Sports • Uniform Light • Zero Glare • Enhanced Atmosphere

PRODUCT SERIES

Double-Sided Wall Mount
Dimensions: 1200*290mm | Max Power: 600W

Double-Sided Hanging
Dimensions: 1200*200mm | Max Power: 400W

Single-Sided Vertical Hanging
Dimensions: 1200*600mm | Max Power: 240W

KEY ADVANTAGES

- Excellent uniform illumination with no shadows or dark spots
- Anti-glare design for fast-moving balls (shuttlecock, basketball, volleyball)
- High color rendering for clear visibility of players and equipment
- Durable, impact-resistant construction for intense sports environments
- Creates dynamic, energetic atmosphere that motivates athletes and excites spectators

Star Flash Series Deep Anti-Glare Wall Wash Spotlights

Ultra-Deep Recessed Design • Superior Anti-Glare Performance • Professional Wall Washing

Walk Cool White

White + Black

Key Differentiators

Deeper Anti-Glare Recess – Significantly lower UGR for maximum visual comfort
Thickened Reinforced Spring Clips – Secure and durable installation
Optimized Deep Wall Wash Optics – Smoother, uniform vertical light distribution
Single Color Temperature options: Warm White / Natural White / Cool White

Compared to previous generations, the Star Flash Series offers deeper anti-glare control and more uniform wall washing, delivering a softer, more luxurious lighting effect with zero eye strain.

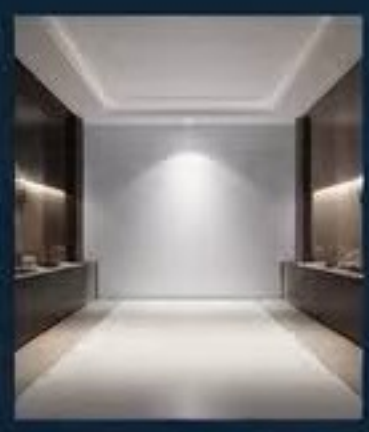

Luxury retail corridor with perfect, glare-free vertical wall washing creating a sophisticated atmosphere.

A high-end art gallery with dramatic spotlighting on a classical artwork, highlighting texture without glare.

Restaurant feature wall with adjustable dust-free intimate mood.

Retail boutique accent wall art white light making merchandise pop.

Residential living room elegant mural lighting washing over a texture circular arch.

Modern Office: a glare-free glare-free office wall.
